DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10, , drawn to an isolated DNA comprising RAFTIN nucleotide sequence and a plant cell or seed comprising the DNA.

Group II, claim(s) 11-13, drawn to a hairpin construct of RAFTIN nucleotide sequence and a plant cell or seed comprising the construct.

Group III, claim(s) 14-15 drawn to a method of using the construct of Group II.

Group IV, claim(s) 18-19 drawn to a method of using the DNA of Group I.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The technical feature linking the inventions of Groups I-IV is a RAFTIN nucleotide sequence. However, this feature is anticipated by Sasaki et al (1999, Genbank Accession Number AP000364). Sasaki et al. teach that a nucleotide sequence encoding a rice RAFTIN

orthologue as evidence by Wang et al. (2003, PNAS 100:14487-14492, the paragraph bridging pages 14487-14488) . Therefore this technical feature does not constitute a special technical feature as defined by PCT Rule 13.2, because it does not define a contribution over the prior art.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
